

Competition rules for the 5th 'Africa Focus' Photography Contest

Casa África announces the 5th 'Africa Focus' Photography Contest, which will award a prize to the best photographs that make known the positive aspects of the African continent in relation to sustainable economy, this year's theme. Family farming, competitive local projects, ecological innovation, intelligent consumption, empowerment of rural populations or efficient production in large cities, among others. We are looking for images that speak of sustainable production and consumption and show techniques, practices and projects that combine productivity and profitability with social cohesion and respect for the environment.
